

OUR MISSION

The Golden Tornadoes Speech and Debate Society (GTSD), Inc. is a charitable, non-profit organization whose purpose is to provide Pompano Beach High School Speech and Debate students with a forum in which they can enhance their education through productive, competitive speech and debate experiences; to strengthen and perpetuate the speech and debate program at Pompano Beach High School; and to provide opportunities that challenge and prepare out students to be college and career ready.

We do this in various ways such as hosting tournaments and award ceremonies, providing travel assistance (financial) to students that are members of the GTSD, and assist with the funding for items that the debate coach needs that are not budgeted for.

We are currently fundraising within our community to support the Pompano Beach High School Debate Program. Our Capstone Diploma Program is a public-school program that competes on the national stage against well-funded private schools and public schools from more affluent areas of our country. We depend on support from parents and the community to help our program thrive. 100% of the proceeds raised through community fundraisers directly benefit our students. Furthermore, all donations and monies raised are tax deductible, and on request we can furnish you with a letter for tax purposes.
